PROFESSIONAL SUMMARY

Frontend-focused MERN Stack Developer with 1+ year of experience building API-driven dashboards and production-style web applications using React, Next.js, TypeScript, Tailwind CSS, and shadcn/ui. Strong in reusable UI architecture, custom hooks, protected routes, REST API integration, and dashboard workflows, with hands-on experience in Node.js, Express, and MongoDB.

TECHNICAL SKILLS

Frontend: React.js, Next.js App Router, TypeScript, JavaScript ES6+, Tailwind CSS, shadcn/ui

State & Data: Redux Toolkit, RTK Query, TanStack Query, TanStack Table, React Hook Form, Zod

Backend: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT

Tools: Git, GitHub, Vercel, pnpm, npm

PROFESSIONAL EXPERIENCE

Frontend Developer | Betopia Group

March 2025 – Present | Dhaka, Bangladesh (On-site)

- Built reusable frontend systems including data tables, modal wrappers, pagination, shared layouts, search/filter components, infinite lists, and location inputs.
- Developed an optimized URL-state filtering hook for Next.js App Router with debounced navigation, pagination reset, and responsive dashboard filtering.
- Implemented authenticated dashboard workflows with protected routing, role-based UI, validated forms, rich-text editing, location autocomplete, and API-integrated CRUD flows.

SELECTED PROJECTS

Mess Management System | Next.js, TypeScript, Tailwind CSS, shadcn/ui, Express.js, MongoDB

[Live Demo](#) | [Client GitHub](#) | [Server GitHub](#)

- Built a full-stack role-based mess management platform with admin/manager/member dashboards, protected routes, member approval, billing cycles, notices, complaints, JWT auth, RBAC, and API-integrated workflows.

MentorIP Law Firm | Next.js, TypeScript, Tailwind CSS, shadcn/ui

[Live Demo](#) | [GitHub](#)

- Built a responsive IP law firm website with service/article pages, contact forms, SEO metadata, polished layouts, and motion-driven interactions.

Wedding Marketplace | Next.js, TypeScript, Tailwind CSS, shadcn/ui

[Live Demo](#) | [GitHub](#)

- Built a vendor marketplace UI with vendor/venue browsing, smart filters, compare flows, user/vendor dashboards, quote workflows, infinite lists, and location autocomplete.
