PROFESSIONAL SUMMARY

Frontend Developer with over 1 year of professional experience building and shipping production websites and role-based dashboards across multiple client products. Experienced in React.js, Next.js App Router, TypeScript, API integration, reusable component architecture, responsive UI development, SEO, and performance optimization.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, shadcn/ui

State & Data: Zustand, Redux Toolkit, TanStack Query, TanStack Table, React Hook Form, Zod

Backend, Database & Tools: Node.js, Express.js, PostgreSQL, Prisma ORM, MongoDB, REST APIs, Git, GitHub, Vercel, Postman

PROFESSIONAL EXPERIENCE

Junior Frontend Developer | Sparktech Agency (March 2025 – Present)

Full-time, On-site | Dhaka, Bangladesh

- Serve as the sole frontend developer across multiple client products, owning production websites and role-based dashboards from requirement analysis to delivery.
- Build reusable, API-driven interfaces for dashboards, complex forms, data tables, authentication, and role-based workflows using Next.js, React, TypeScript, and modern state-management tools.
- Built reusable [useNextFilter](#) and [nextServerFetch](#) utilities to standardize URL-synced filtering, debounced navigation, authentication, request handling, and consistent API error management across projects.
- Implement and maintain real-time chat, CRUD/CMS workflows, QR-based access, maps, file uploads, dynamic metadata, route protection, and responsive interfaces.

SELECTED PROJECTS

Mouza Map Pro | Personal Product | [Live Product](#) | [Active Development](#)

Next.js 16, React 19, TypeScript, Konva.js, Zustand, Leaflet, PDF.js, jsPDF

- Own and develop a Bangla-first land-surveying platform for measuring plots, aligning C.S./B.S. maps, tracing boundaries, annotating sheets, finding surveyors, and exporting survey documents at configurable scales.
- Build mobile-first canvas and PDF interactions, worker-backed image processing, low-memory previews, tiled KMZ export, snapping, undo/redo, and responsive workflows for lower-powered devices.

Mess Management System | Personal Full-Stack Project | [Live Demo](#) | [Frontend GitHub](#) | [Backend GitHub](#)

Next.js, React, TypeScript, Tailwind CSS, Zustand, PWA, Express.js, MongoDB

- Built responsive role-based dashboards for meals, members, billing, expenses, market schedules, and financial reports with API integrations and PWA support.
- Added AI-assisted menu planning and shopping-list generation based on budget and dietary preferences.

Frontend Utilities | Reusable Next.js & TypeScript Hooks | [GitHub](#)

- Developed a typed URL-state filter with optimistic updates, debouncing, batch changes, pagination reset, and multi-select support, alongside reusable clipboard, countdown, storage, media-query, and network-status hooks.

EDUCATION

Diploma in Computer Science & Technology | Dinajpur Polytechnic Institute (2021–2024)

CGPA: 3.50/4.00

ADDITIONAL INFO

Programming Hero | Web Development Level 1 (Completed); Next Level Web Development (Ongoing).

Completed modules: JavaScript, TypeScript, Next.js, Node.js & Express, PostgreSQL & Prisma.

Languages: Bangla (Native), English (Working Proficiency)
